Commendation of National Baptist Convention on Adoption of Resolution Entitled "A Call for National Unity".

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council submitted the following proposed resolution:

WHEREAS, The National Baptist Convention, this nation's largest organized body of Negroes, unanimously adopted "A Call for National Unity" in its eighty-fifth session in Jacksonville, Florida, in September, 1965; and

WHEREAS, Said Call grew out of the conviction that all American citizens and all groups within the confines of the nation must work together in order to sustain the nation's life as well as to attain the good things of life for themselves; and

WHEREAS, Said Call acknowledges that the Federal Constitution contemplates political, social, and economic evolution and provides for basic changes by amendments. All citizens are urged to obey fundamental constitutional principles and take part in evolutionary changes through amendments when time, experience and change demand it. The fundamental principles require unqualified loyalty to and support of the nation as a whole, and require that we, as citizens, trust a just nation to protect and save us as citizens and all that we value and hold dear. Our common enemies are those persons and groups who by ideologies and purposes are committed to the destruction of this nation and seek to weaken and destroy this republic by emphasizing and exploiting differences among us; and

WHEREAS, Said Call acknowledges that we are at this moment engaged in a bloody conflict with international communism in Vietnam and are potentially in conflict with the same forces throughout the world as well as at home. Americans can no longer afford the luxury or the negative burdens of past prejudices, hatred, envy, discrimination, disrespect for law and order and for one another, nor can we afford to permit the strife which results from pitting one group against another, which serves no constructive or useful purpose, but only divides and weakens the nation as a whole; and

WHEREAS, Said Call urges all groups to rise above the differences of creed, color and caste, and to join together as Americans in order to work for, live for, and—if need be—die for the ideals, values, and principles of justice, freedom, and equality. We must all obey the letter and spirit of federal law by adopting a good-neighbor policy among ourselves by which our nation can build community spirit and support organizations furthering good will and the security and development of our families, for the moral and spiritual growth of those dwelling in the community, for the advancement of culture, and for the strengthening of our national government both at home and abroad; and

WHEREAS, Said Call for National Unity proposes a cooperative venture among the citizens of the United States for the advancement of ideals of justice and freedom which in no way jeopardizes legitimate privileges and moral good of free enterprise nor imperils the personal rights of individuals and groups for, as the great educator Booker T. Washington has said, in all things strictly personal and in all matters purely private we can be as separate as the fingers, but one as the hand in all things tending toward the mutual progress of the individual, of groups, as well as the fulfillment of the nation's life itself; now, therefore,

Be It Resolved, That the Mayor and the City Council by this resolution spread upon the Record of the Proceedings of the City Council of the City of Chicago, hereby commend the National Baptist Convention for its promulgation of a "Call for National Unity" and urge the citizens of our community to heed such a call and to make its fundamental principles of duty, loyalty, and freedom a part of our daily lives.

Alderman Holman moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Holman the privilege of the floor was extended to Dr. Jackson to address the members of the City Council in connection with the ideals embodied in the proposed resolution.

Dr. Jackson in his remarks stated that he desired to express to the Mayor and the City Council his personal appreciation and that of his colleagues as well, to speak on behalf of all persons who share his beliefs.

He stated that the event of the day had strengthened his faith in the leadership of Chicago; that he and his associates are aware that there is much at

the present time which needs improvement, but that it is their firm belief that this improvement must come by supporting duly elected officials.

He further stated that they know that criticism and the right of protest is a vital part of a democratic system, but that their ideals can best be achieved as quickly as possible with less cost in men and materials through the process of law and order and not by methods that produce violence and bloodshed as a by-product.

He asserted that he and his colleagues are proud of Chicago because its Mayor, Richard J. Daley, was the first Mayor in the United States to endorse their movement, that since that time the Mayors of many cities and eight Governors have joined in sponsoring their program, and concluded by pledging support of the leadership dedicated to the high ideals of the Great Society.

After debate, on motion of Alderman Holman (seconded by Aldermen Campbell, Miller, Collins and Chew) said proposed resolution was *Adopted,* by yeas and nays as follows:

Yeas—Aldermen Parrillo, Metcalfe, Holman, Despres, Miller, Bohling, Condon, Lupo, Buchanan, Danaher, Zelezinski, Healy, J. P. Burke, Krska, Chew, Murray, Fitzpatrick, Campbell, Yaksic, Collins, Marzullo, Zydlo, Provenzano, T. F. Burke, McMahon, Keane, Sulski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Kaplan, Scholl, Goldberg, Rosenberg, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda, Sperling—44.

Nays—None.

The Mayor thereupon called the Council's attention to the presence of a number of religious and lay Baptist leaders who were in attendance at the meeting. The visitors acknowledged the Mayor's introduction.

Court Decisions.

Mildred Gibbons, et al, Plaintiffs-Appellees, v. City of Chicago, Defendant-Appellant. Illinois Supreme Court, Docket No. 38832. The Illinois Supreme Court on January 25, 1966 reversed the judgment of the Circuit Court of Cook County in the above entitled cause which held invalid and unconstitutional the City's ordinance regulating self-service coin-operated laundry establishments. In upholding the validity of the ordinance, the Supreme Court noted that the authority of the City to enact a licensing ordinance regulating said business was not in question but that the main thrust of plaintiffs' challenge was to the validity concerning the requirements of an attendant during specified hours, stating that the provisions do not violate either the Illinois or the United States Constitution. The Court also found the other provisions of the ordinance to be constitutional and valid.

Jack F. Bourne, etc., et al., Plaintiffs-Appellees, v. Lloyd M. Johnson, etc., et al., Defendants-Appellants, Thomas F. Taplin, etc., et al., Intervenors-Defendants-Appellants; Appellate Court No. 49700. The Appellate Court on February 8, 1966 rendered its opinion reversing the judgment of the trial court in the above cause thereby affirming the action of the Civil Service Commission in reinstating foremen of linemen to the position of foreman after lay-off of both foremen of linemen because of lack of work and subsequently vacancies occurring in the position of lineman and certain foremen were reinstated to said vacancies. The Appellate Court in construing the rules of the Civil Service Commission, held that both titles were entitled to have the names on the reinstatement list both for foreman of linemen and lineman.

City of Chicago, Plaintiff-Appellee, vs. Fred B. Mayers, Defendant-Appellant, Appellate Court No. 50603. The Appellate Court of Illinois on February 8, 1966 filed its opinion in the above entitled cause affirming the order of the First Municipal District of the Circuit Court of Cook County which had denied plaintiff's petition requesting specified records of identification from the Chicago Police Department.

La Salle National Bank, a National Banking Association, Trustee under Trust Agreement dated October 1, 1962 and known as Trust No. 30016, Plaintiff-Appellee vs. City of Chicago, a Municipal Corporation, Defendant-Appellant. Illinois Appellate Court No. 50360. The Illinois Appellate Court on February 8, 1966 filed an opinion reversing the judgment of the Circuit Court of Cook County in the above entitled cause and remanded the cause with directions to dismiss the complaint for want of equity. The Circuit Court in a declaratory judgment action had entered a decree enjoining the enforcement of the Zoning Ordinance provisions for property located at Nos. 1101-1115 E. 63rd St. and ordered the City to issue permits and licenses for a gasoline service station in a B3-3 zoning classification.

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) hereto-

fore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified street(s) shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In the intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributer at a rate of one and one-half (1½) per gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 1 and R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

Asphaltic Concrete Surface Courses, Fine Dense Graded Aggregate Type.

Passing ½ inch sieve	95-100%
Passing ½ inch, retained on No. 4 sieve	45- 65%
Passing No. 4 retained on No. 10 sieve	10- 30%
Passing No. 10 retained on No. 40 sieve	5- 18%
Passing No. 40 retained on No. 50 sieve	7- 22%
Passing No. 80 retained on No. 200 sieve	5- 13%
Passing No. 200 sieve	4- 8%
Bitumen	5- 7%

(Table 45. llp. 247 State Specifications)

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6 Paving Asphalt, adopted January 2, 1952. It shall have a flash point

(Cleveland open cup) at 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hunderd and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tender roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

Concrete crosswalks shall be built at intersection only. Concrete crosswalks shall be built according to the Standard City Code of the City of Chicago.

The concrete shall conform to Class X Concrete (as described in this ordinance for curbs and gutters).

All existing catchbasins which are to be abandoned are located at the intersections of streets. Where existing catchbasins are to be abandoned, the outlet pipe connection from the catchbasin to the sewer shall be plugged and properly sealed and the corbel courses broken down and the catchbasin cleaned and filled with suitable material.

Said work is to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

Section 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement, together with the estimate of the cost hereof, including the lawful expenses attending the same, made by the engineer of said Board both hereto attached, be and the same are hereby approved.

Section 3. That said improvement shall be made and the cost thereof, including the lawful expenses attending the same, be paid by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements", approved June 14th, A.D. 1897, and the amendments thereto, and that of said special assessment the sum of Ten Thousand Five Hundred Seventy-four and No One-Hundredths Dollars ($10,574.00), not exceeding five (5) per centum of the amount of said assessment as finally determined after the completion of said improvement in accordance with Article 9-2 of said Act, shall be applied toward the payment of the cost of making, levying and collecting said special assessment, and of letting and executing contracts, advertising, clerical hire, engineering and inspection, court costs and deficiency in interest in the matter of said special assessment, in accordance with the provisions of said Act.

Section 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five (5) installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five (5) per centum per annum according to law until paid.

Section 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement (excepting such part, if any, that is chargeable to the City of Chicago for public benefits to public lands), bonds shall be issued payable out of said installments bearing interest at the rate of five (5) per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements", approved June 14th, A. D. 1897, and the amendments thereto.

Section 6. That the Corporation Counsel be and he is hereby directed to file a petition in the Circuit Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

Section 7. That all ordinances, or parts of ordinances, conflicting with this ordinance be and the same are hereby repealed.

Section 8. This ordinance shall be in force from and after its passage.

It is hereby agreed that the Commissioner of Water and Sewers of the City and his authorized representatives shall have access to and the right to adjust and control valves and meters in order to limit the flow of water as herein provided and for the purpose of meeting any and all emergencies and necessitous requirements.

The failure, neglect or refusal on the part of the Village to make promptly and properly such changes in its piping, to maintain tightness or to eliminate undesirable connections upon notice in writing so to do from said Commissioner of Water and Sewers, shall furnish sufficient grounds for the City to shut off the water and discontinue the service hereunder until changes and corrections in said piping or connections required by the City are made by the Village.

16. The Village agrees to prevent excessive use and waste of water.

17. The Village agrees to appropriate annually sufficient money or so much thereof, as may be necessary, to provide sufficient funds for the payment of the water furnished by the City hereunder.

18. It is further agreed that the City may either in law or equity, by suit, mandamus or other proceedings, enforce or compel performance of any and all covenants herein contained.

23. The Village agrees to use City water exclusively during the period of this contract.

24. The Village further agrees not to sell, lease or give any interest in or right or privilege to utilize its water supply main or mains to any other municipality or any consumer of water whose premises are located outside the territorial limits of the Village, and further agrees not to permit any connection to be made to its water supply main or mains, except to supply consumers within the territorial limits of the Village without first securing the consent in writing of the City Council of the City so to do.

25. At the end of each calendar year during the term of this contract and not later than March 31st of each year, the Village agrees to submit to the Commissioner of Water and Sewers of the City a report in writing showing in cubic feet or gallons the amount of water furnished the Village and the amount in quantity and charges billed by it to consumers during the preceding year and to furnish such other information regarding billing, collections and delinquencies as may be requested from time to time by said Commissioner of Water and Sewers.

31. If the Village shall refuse, neglect or fail to pay promptly the water bills rendered for the water supplied it hereunder within the time or times prescribed by the ordinances of the City, or if the Village shall fail to comply with or perform any of the conditions or obligations on their part to be complied with or to be performed hereunder, and if after such failure the City shall deliver at the Village Hall of the Village of Alsip, addressed to the President and Board of Trustees of the Village of Alsip, a notice in writing of its intention to shut off the supply of water on account of such failure, refusal or neglect, then the City shall have the right to shut off the supply at the expiration of five (5) days after the giving of such notice, and to terminate this contract unless within such five (5) days the Village shall make good such failure. The shutting off of the supply of water for any such cause shall not release the Village from its obligation to make payments of any amount or amounts due or to become due in accordance with the terms hereof.

32. No assignment or transfer of this agreement shall be made by the Village.

33. The Village hereby waives any defenses it may have by virtue of any governmental function it exercises in any action brought at law or equity under the terms of this contract.

by making any promise or representation not contained herein.

35. This agreement is subject to cancellation by the City of Chicago in the event the Supreme Court of the United States of America or any other court of competent jurisdiction decrees that the City has no right to contract for, sell, disperse, distribute or limits the amount of water the City may use for domestic pumpage or otherwise places a burden on the City in connection with the withdrawal of water from Lake Michigan, or otherwise dispose of water from Lake Michigan, to any municipality or user residing outside of the limits of the City of Chicago.

Residential use in the residential and/or office area is limited to elevator and walkup apartment structures. A convenience shopping group may be located within the residential area central to the area served. This may consist of about two small stores on the ground floor level of a residential structure. The approximate amounts of land to be devoted to the several uses are shown on the Land Use Plan and in the following tabulation:

The following tabulation shows the addresses, kinds of improvements and the uses of properties which may not be acquired, provided the owners conform them to this Redevelopment Plan. Those properties will be acquired if the owners do not abide by the requirements of this Redevelopment Plan.

3. *Traffic Circulation*

It is anticipated that approximately twenty percent of the residential area will be devoted to local access streets whose exact location will be determined just prior to land disposition.

Access to property within the project area will be from local streets, and restricted from 35th Street and Cottage Grove Avenue.

E. *Controls on Redevelopment*

1. *Land Use Controls*

These are given on the Land Use Controls attached to this narrative statement.

2. *Controls on Redevelopers*

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Department. It is anticipated that redevelopers will not be permitted to defer the start of construction for a longer period than required for the preparation of architectural plans and the submission of such plans to the Department for the latter's determination as to conformance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

All revisions to this plan will be subject to approval by the Department of Urban Renewal, the Chicago Plan Commission, and the City Council, after hearing by the Committee on Planning and Housing of the City Council.

HONORARY CITIZENSHIP OF CITY OF CHICAGO CONFERRED ON PRINCE PHILIP.

At this point in the proceedings a kilted Chicago Highlanders Band piped Prince Philip, Honorable Richard J. Daley, Mayor, and distinguished guests into the Council Chamber.

The Mayor thereupon formally introduced Prince Philip, who was warmly applauded by members of the City Council and assembled visitors.

At the request of the Mayor the members of the City Council and visitors remained standing for the

invocation offered by the Right Reverend Gerald F. Burrill, Bishop of the Episcopal Diocese of Chicago.

Honorable Richard J. Daley, Mayor, thereupon addressed the Council, stating the people of Chicago were happy to welcome the Prince officially since he was in attendance at a regular meeting of the City Council, a legislative body symbolical of the ideals of representative government basic to the British government and our own. He recalled that for many years strong ties have existed between the people of both countries and cited the voluntary gift of the people of England after the Chicago Fire when they contributed more than eight thousand volumes by their most celebrated authors, including one personally inscribed by Queen Victoria, which became the nucleus of our present Chicago Public Library.

Another happy event recalled by the Mayor was the visit of Queen Elizabeth and Prince Philip in 1959 to inaugurate the opening of the St. Lawrence Seaway.

The Mayor thereupon presented a medallion to the prince, emblematic of honorary citizenship of the City of Chicago.

Prince Philip responded by thanking the Mayor and the people of Chicago for the warm welcome accorded him. He also recalled the cordial welcome accorded Queen Elizabeth and himself on the occasion of the opening of the St. Lawrence Seaway, but stated that he was immensely pleased on this occasion since the welcome appeared to be a personal tribute. He accepted the medallion and asserted that it would always be a cherished memento of his visit.

The Mayor thereupon recognized Alderman Keane, who complimented Prince Philip for looking more handsome, younger, sharper and even richer than he appeared on his visit in 1959. He praised the hospitality of the people of England when he had visited their country, and he concluded his remarks by inviting the prince to remain in Chicago for the St. Patrick's Day festivities.

Honorable Richard J. Daley, Mayor, thereupon presented to the City Council the following distinguished guests who were present on the rostrum:

The Right-Reverend Bishop Gerald F. Burrill

The Honorable D. J. B. Robey, British Consul General

Mr. Thomas Ayers, President, Chicago Association of Commerce and Industry

Mr. William A. Lee, President, Chicago Federation of Labor

The Reverend Carl Fuqua, Chairman, Chicago Chapter, National Association for the Advancement of Colored People

WHEREAS, St. Patrick, the revered Saint of Ireland, shall always be remembered as the courageous religious missionary who brought the Christian Faith to Ireland and endowed the inhabitants thereof with a deep, abiding and fervent devotion to their faith, which has endured through the centuries; and

WHEREAS, The sons and daughters of the Emerald Isle and their descendants who have settled in the far corners of the world have retained and carried with them the missionary fervor, the love of religious vocations and the devotion to freedom, the legacy of St. Patrick; and

WHEREAS, The exemplary life, teachings and spiritual contributions of this great Saint of the Catholic Church are recognized and honored by people of other national origins throughout the world; and

WHEREAS, In mind of the achievements that the sons and daughters of Ireland, prompted by the spirit of St. Patrick, have made to religion and civilization, we honor his memory and acknowledge

WHEREAS, Jim Norris' chief sports love was hockey, and through his efforts and desire to own a winner, he brought the "Blackhawks" from habitual cellar dwellers to one of the most powerful hockey teams, consistent championship contenders. His wish to take the Hockey League Championship with his "Hawks" was denied him by his untimely death, but not before he was elected to Hockey's Hall of Fame; and

WHEREAS, Jim Norris, known not only as a great sports figure, but also as an active participant in the business world, as Chairman of the Board of the Chicago Stadium Corporation and of Chicago Blackhawk Hockey Team, Inc.; as Board Chairman of Bismarck Hotel Company, Chicago; of First National Bank of South Miami, Florida; Vice Chairman of American Furniture Mart Corporation of Chicago; Director of the Chicago, Milwaukee, St. Paul & Pacific Railroad Company, and a member of the Chicago Board of Trade and the Board of Governors of the National Hockey League. He enjoyed membership in various clubs and derived much pleasure and satisfaction from his ownership and operation of Spring Hill Farms, Inc., at Paris, Kentucky and South Miami, Florida, where he raised thoroughbred race horses; and

WHEREAS, The Mayor and Members of the City Council were deeply grieved to learn of the death of Abe Saperstein, who gained renown as a true citizen of the world as the original exponent of professional basketball as a game of skill mingled with elements of comedy and first class entertainment; and

WHEREAS, Mr. Saperstein, although he was born in London, England, migrated to Chicago and attended local schools where he developed a talented capacity and interest in the game of basketball and in 1927 launched the first professional team which, during a 39-year period, has grown to a game which has thrilled and amused multiple thousands of spectators in at least 87 countries; and

WHEREAS, Because of Mr. Saperstein's foresight, enthusiasm and love of the game, the teams he developed provided the ultimate in the game's peculiar skills and, in cooperation with certain United States Government officials and authorities, spread American good will throughout the universe by ranging across geographical and political boundaries, yes, even behind the Communist Iron Curtain, to entertain the elderly and inspire the young in good sportsmanship; and

WHEREAS, Mr. Saperstein enunciated in his own quiet manner the need and wisdom for racial integration by applying the rule that participants on his teams should be picked on the basis of merit, not color or religion; and

WHEREAS, In developing this game into an industry which attracted worldwide attention, Mr. Saperstein hurdled many economic obstacles and contributed to the need for building our youth in all nations into able-bodied manhood and demonstrated how a new game can be comprehended by all, despite language barriers; now, therefore,

Be It Resolved, That the Mayor and City Council deeply mourn the passing of Abe Saperstein, whose name will be forever linked to the worldwide famous team name, Globetrotters, and will be remembered for his role as an unofficial American Ambassador of Good Will, and extend to his bereaved family their sincere sympathy; and

SUBLEASE

This Sublease, made as of ....., 1966 by and between Trans World Airlines, Inc. (hereinafter designated "T.W.A.") and Japan Airlines (hereinafter designated "Japan").

Witnesseth:

Whereas, under date of March 27, 1964, the City of Chicago (hereinafter designated "the City") entered into an Agreement (hereinafter designated "the Agreement") with T.W.A. for the lease from the City to T.W.A. of certain premises (hereinafter designated "the Premises") at Chicago-O'Hare International Airport and more specifically described therein; and

Whereas, T.W.A. and Japan now desire to enter into a sublease of certain space in the Premises;

Now, Therefore, in consideration of the premises and the mutual covenants and agreements herein contained, the parties hereto mutually agree as follows:

1. T.W.A. hereby leases to Japan certain space consisting of one hundred fifty (150) square feet of office space on the second floor of the Premises, and, in addition to the aforesaid space, Japan is hereby granted the right to use jointly with T.W.A. the customer service counter and scales, provided, however, that T.W.A. shall always have priority of use of said counter and scales.

2. The term of this agreement shall be for a period of one (1) year commencing on....., the date of approval of ordinance by the City Council of the City of Chicago. Should the commencement date be other than the first day of a month, the rental for such period shall be proportionately reduced. It is understood and agreed that either party and the City may cancel this agreement at any time upon thirty (30) days written notice to each of the other parties.

3. As rental for said space Japan agrees to pay to T.W.A. during the term hereof the sum of one hundred fifty dollars ($150.00) per month within ten days after receipt of T.W.A. written billing therefor. Said rental shall include heat, light, and electricity as presently installed in said space, but should Japan require further or additional utilities, then and in such event the cost of obtaining, installing and maintaining the same shall be at its cost and expense.

4. Subject to the written approval of the Commissioner of Aviation and the T.W.A. Senior District Transportation Manager, Japan may, at its sole cost and expense:

1. Install partitioning and make such other modifications to the space as Japan deems desirable.
2. Install an identification sign at the customer service counter. It is understood and agreed that no exterior identification sign or display shall be installed by Japan on the exterior of the air cargo building unless Japan has obtained written approval of both the Commissioner of Aviation and the T.W.A. Senior District Transportation Manager.

5. Japan's use of said space shall be for the purpose of preparing proper documentation for shipments destined for transfer by it at Chicago or other international airports, for obtaining the necessary clearances with the Customs Service of the United States of America or the Kingdom of Japan, as the case may be, for servicing of its customers in the Chicago area and for no other purposes whatsoever.

6. Japan hereby agrees to indemnify and hold the City and T.W.A. harmless from and against any and all liabilities, judgments, costs, damages and expenses which may accrue against, be charged to, or recovered from the City or T.W.A. by reason or on account of damage to the property of the City or T.W.A. or the property of, injury to, or death of any person arising from Japan's use and

occupancy of said space including acts of its agents, contractors and subcontractors except when caused by the sole negligence of T.W.A., its agents, contractors and subcontractors. Japan further agrees to furnish the City and T.W.A. with evidence of insurance of the type and in the amounts as may be requested by the City and T.W.A.

7. Japan shall keep and maintain the exclusively leased space in good condition and repair, and, unless otherwise agreed upon between its representative and the T.W.A. Senior District Transportation Manager, shall obtain at its sole cost and expense usual janitorial services to maintain said space in a clean, neat, orderly and presentable appearance.

8. This agreement is subject to the written consent of the Commissioner of Aviation of the City and Japan agrees to obtain the same. T.W.A. shall, to the extent possible and at Japan's request, assist it in procuring such consent.

9. Japan covenants and agrees that this sublease, the terms hereof, and all its rights hereunder are subject and subordinate in all respects to the terms and conditions of the Agreement under which T.W.A. is or may be, during the term of this Agreement, in possession of said space.

10. Notices under this agreement shall be deemed sufficient if sent by certified or registered mail addressed to Secretary, Trans World Airlines, Inc., 605 Third Avenue, New York, New York 10016, or to Japan Air Lines, 60 East Monroe Street, Chicago, Illinois 60603, or to such other addresses as the parties may designate from time to time.

11. Japan agrees that in performing under this agreement it shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color or national origin, nor otherwise commit an unfair labor practice. Japan further agrees that this article will be incorporated by Japan in all contracts entered into with suppliers of materials or services, contractors and subcontractors and all labor organizations, furnishing skilled, unskilled and craft union skilled labor, or who may perform any such labor or services in connection with this agreement. Attention is called to Executive Order 10925 issued March 6, 1961, 3 CFR 1959-1963 Comp. p. 448, as amended; The Civil Rights Act of 1964, Pub. Richard Attreau, Plaintiff-Appellant vs. Joseph Morris, Francis J. Bailey, et al., Defendants-Appellees, United States Court of Appeals, Seventh Circuit, No. 15105. The United States Court of Appeals for the Seventh Circuit District on March 21, 1966 filed an opinion in the above entitled cause reversing the judgment of the United States District Court for the Northern District of Illinois, Eastern Division, and remanding the cause to the District Court for further proceedings. The plaintiff, a Chicago Police Officer charged that the defendants, also Chicago Police Officers, violated his civil rights because of a false arrest and indictment of "official misconduct" on the basis of their false testimony. On motion of the defendants the District Court dismissed the complaint because it did not state a cause of action.

Railroad Transfer Service Inc. vs. City of Chicago, et al., United States Court of Appeals, Seventh Circuit, No. 15230. The United States Court of Appeals, Seventh Circuit, on March 10, 1966 rendered its opinion in the above entitled cause to the effect that the ordinance regulating the transportation service of passengers and baggage from one railroad terminal to another does not burden interstate commerce; the Court further held that it is not shown that the City of Chicago has applied the requirements of the ordinance in any manner to the detriment or harm of the plaintiff and therefore there is no actual controversy between the parties.

The City of Chicago, Appellee vs. Universal Publishing and Distributing Corporation, Appellant, Illinois Supreme Court Nos. 39260-1-2 cons. The Illinois Supreme Court on March 24, 1966 filed an opinion in the above-entitled cause reversing the judgment of the Circuit Court of Cook County, which had adjudged the defendant publisher guilty of publishing obscene paperback books. Placed on File—RESOLUTION ADOPTED BY CHICAGO PLAN COMMISSION APPROVING 1965-1969 JOINT CAPITAL IMPROVEMENT PROGRAM.

The Committee on Finance submitted to the City Clerk the 1965-1969 Joint Capital Improvement Program and the resolution adopted by the Chicago Plan Commission with reference thereto. Said Joint Capital Improvement Program and resolution were delivered to the City Clerk to be *Placed on File.*

Alderman Despres moved to *Postpone* consideration of the Capital Improvement Program.

Alderman Keane raised the point of order that the motion to postpone was out of order because the report of the committee recommended that the subject-matter be placed on file. The Chair *Sustained* the point of order.

Alderman Keane moved that the privilege of the floor be extended to Mr. John G. Duba, Commissioner of the Department of Development and Planning.

Honorable Richard J. Daley, Mayor, thereupon called Mr. Duba to the rostrum to explain to the Council the purpose and objectives of the Capital Improvement Program, which can be and are revised and changed as the necessity for change occurs. After his explanation Mr. Duba answered various questions propounded by the Aldermen.

Thereupon Alderman Despres presented a series of three motions, to which motions Alderman Keane raised the point of order that *each* of them was out of order for the reason that the report of the committee was merely informational matter to be placed on file, and there was no action required or to be taken by the City Council. The Chair *Sustained* the point of order.

The report was thereupon *Placed on File.*

Placed on File—MONTHLY PROGRESS REPORT NO. 226.

The Committee on Finance submitted a report recommending that the City Council *Place on File* a communication from the Commissioner of Public Works dated March 18, 1966, transmitting Monthly Progress Report No. 226 showing progress of construction on Sewer Bond Issue Projects for the month ended February 28, 1966. On motion of Alderman Keane the committee's recommendation was *Concurred In.*

Failed to Pass—MISCELLANEOUS PROPOSED ORDER AND PROPOSED ORDINANCE.

The Committee on Finance submitted two reports recommending that the City Council *do not pass* a proposed order and a proposed ordinance transmitted therewith, which had been referred to the committee on the dates noted below, as follows:

(March 16, 1966) Proposed ordinance to cancel existing water rates and to exempt payment of future rates assessed against Sokol Community Center, No. 4855 N. Elston Avenue.

Alderman Keane moved to *Concur* in the committee's recommendations. The several questions thereupon became: *Shall the proposed order and proposed ordinance Pass, the recommendation of the committee to the contrary notwithstanding?;* and the several questions being put, the proposed order and the proposed ordinance *Failed to Pass,* by yeas and nays as follows: *Yeas*—None; *Nays*—43.

D. *Land Use Plan*

1. *General*

The objective of the redevelopment plan is to provide residential use for moderate income families and for the aged, as well as for expansion of existing community facilities which now form a focal point for the entire community of which this project area is a part.

As shown on the Land Use Plan attached to this narrative statement, the land in Project Noble-Division is to be used for the following purposes: residential, institutional, and an electric sub-station owned by the Chicago Transit Authority, provided that property conforms to this Redevelopment Plan.

Residential use in the project area may be supplemented by limited auxiliary uses. Such auxiliary uses are primarily meant to serve the project area and may include cultural facilities such as exhibit, meeting, child care, and craft rooms or convenience business retail and service facilities. Business retail and service use may include facilities such as a delicatessen or other stores of moderate floor area for the convenience of residents of the project area.

The approximate amounts of land to be devoted to the several uses are shown on the Land Use Plan and in the following tabulation:

Land Use	*Approximate Area in Acres*	*Percent*
Gross Area	17.7	100.0

2. *Properties Which May Not Be Acquired*

Shown below are the addresses, kinds of improvements and the uses of properties which may not be acquired, provided the owners of those properties conform them to this Redevelopment Plan. In determining conformance to this Redevelopment Plan the Department of Urban Renewal will require, among other things, that the buildings comply with the applicable codes and ordinances of the City of Chicago and be standard in all respects. Those properties will be acquired if the owners do not conform them to this Redevelopment Plan. Structures shall not be deemed to be non-conforming if the non-conformance results solely from the unavailability of project land:

E. *Controls on Redevelopment*

1. *Land Use Controls*

a. *Residential Use*

The land use controls for such residential use will allow a variety of residential structural types as follows: Single family detached, at a maximum density of 8 dwelling units per net residential acre, rowhouses at a miximum density of 24 dwelling units per net residential acre, walkup apartments at a maximum density of 30 dwelling units per net residential acre and elevator apartments at a maximum density of 120 dwelling units per net residential acre.

The objective of this redevelopment plan is to encourage residential development with a variety of structural types. For instance, a portion of the dwelling units might be in elevator apartment structures, and the remainder in walkup apartments and rowhouse structures, with an average density of possibly 45-60 dwelling units per net residential acre for the total development of 325-525 total dwelling units.

Adequate open space shall be provided through provision of appropriate structure setbacks from streets, and provision of lawn areas and play areas.

Adequate off-street parking and loading provisions are to be provided in accord with the needs of the residents. The minimum parking required includes spaces for 50 per cent of the efficiency units, 100 per cent of the single-family detached houses and townhouses, and 75 per cent of all other dwelling units. A minimum of one off-street loading space (10'x25') shall be provided for each elevator apartment structure.

b. *Institutional Use*

Minimum off-street parking required for school use will include 1 space for each 12 seats provided in the school auditorium and 1 space for each 3 employees. For church use 1 parking space will be provided for each 12 seats.

2. *Other Controls*

The respective owners of, and other parties interested in, properties lying within the project site not acquired by the Department of Urban Renewal will be required to covenant with the Department of Urban Renewal, by means of a written agreement, to restrict said respective properties to the particular uses set forth in the approved Redevelopment Plan. The Restrictive Agreement will provide that said covenants shall run with the land for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. These covenants and agreements shall be enforceable by the parties thereto, and their successors in title and possession.

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Department of Urban Renewal. It is anticipated that redevelopers will not be permitted to defer the start of construction for a longer period than required for the preparation of architectural plans and the submission of such plans to the Department of Urban Renewal for the latter's determination as to conformance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

After any portion of land is disposed of, the Land Use Plan may be modified only upon written consent of the then property owners directly affected by the proposed modification. The contract with the redevelopers will include prohibitions against land speculation.

D. *Land Use Plan*

1. *General*

As shown on the attached Land Use Plan, the land in Project 6D is to be used for park and residential purposes. The area proposed for park use in this project will complement that proposed for park use in Project 6B, to provide a community park facility immediately west of Dunbar Vocational High School.

Land Use	*Acres*	*Percent*
Gross Area	17.2	100.0
Streets	2.2	12.8
Net Area	15.0	87.2
Net Area	15.0	100.0
Residential	7.1	47.3
Park	7.9	52.7

2. *Traffic Circulation*

Michigan Avenue will be widened eastward forty feet for a future right-of-way of 140 feet. Such added capacity on Michigan Avenue will allow the vacation of Indiana Avenue within the project. This street change will be coordinated with the development of the South and Southwest Expressways.

E. *Controls on Redevelopment*

1. *Controls on Land to be Used for Residential Purposes*

The controls applicable to the part of the project to be used for residential purposes are shown on the Land Use Controls attachment.

2. *Controls on Redevelopers*

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Department of Urban Renewal. It is anticipated that redevelopers will not be permitted to defer the start of construction for a longer period than required for the preparation of architectural plans and the submission of such plans to the Department of Urban Renewal for the latter's determination as to conformance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

All revisions to this Plan will be subject to approval by the Department of Urban Renewal, the Chicago Plan Commission, and the City Council, after hearing by the Committee on Planning and Housing of the City Council.
